HOME BREWING UNIT INSTRUCTIONS

NO BREWER FOR YOUR ECOTEA™? NO PROBLEM!

Here is a quick and easy, do it yourself home brewing unit instruction manual

PARTS LIST: (Below is a picture of all the parts you will need and can find it at your local pet store)

A: 1 x 15 Litres/min Air Pump
   (Aquarium air pumps can work but may not provide enough air flow)
B: 1 x Air Diffuser
C: 3 x Plastic Tubing
   (Length 2-3 ft., you can customize it to your needs)
D: 2 x Air Stone
   (You can have more if you wish)
E: 1 x 5 Gallon Pail
F: 1 x Mesh Bag
   (An old sock can work too)
ASSEMBLY:

STEP 1
Attach one end of the air hose to the air stones and the other to the air diffuser.

STEP 2
Attach the air pump and diffuser together with another air hose.

STEP 3
Lower the attached air stones to the bottom of the 5 gallon pail.

STEP 4
Fill with water and turn on the air pump. You are now ready to brew EcoTea™!
